

ENVIRONMENTAL EDUCATION CLASSES

2016

ORGANIC VEGETABLE GARDENING 101

TUESDAY, FEBRUARY 9 , 2016 • 6:30 P.M. - 8:30 P.M.

Ready to get gardening but wish you knew more? This is the class for you! The owner of Barking Cat Farms will cover a range of topics to help the beginning vegetable gardener be successful growing their own food organically. A limited number of cabbage and lettuce starts will be available for sale.

DIY DRIP IRRIGATION

SATURDAY, FEBRUARY 27, 2016 • 11:00 A.M. - 12:30 P.M.

Drip irrigation is the most efficient irrigation method and essential to sustainable landscapes. It will cut down your water bill while producing a greener healthier yard! Water slower, deeper and more efficient with every drop. Convert your spray heads and watch your sprinkler system save you money from this hands-on drip conversion class. You will learn how to install drip irrigation tubing from your faucet or how to convert an existing zone to drip. Foundation watering will also be covered.

PURPOSEFUL PLANTING: CHOOSING ORNAMENTALS THAT OFFER ALTERNATIVE USES

SATURDAY, MARCH 12 , 2016 • 11:00 A.M. - 12:30 P.M.

Kick-off Horticultural Therapy Week by learning how to get the most out of your plants! Horticulturist Susan Morgan, M.S., presents a variety of ornamental plants that provide benefits beyond the esthetics of your landscape. She will feature a range of Texas-tough plants with multi-seasonal and multi-sensory value, as well as utilitarian uses like crafts, edibles, and floral arranging.

EDIBLE LANDSCAPES

TUESDAY, MAY 24, 2016 • 6:30 P.M. - 8:30 P.M.

Utilizing areas in your landscape to grow edibles is a way to add food on your table and reduce your grocery bill. This Texas A&M program teaches you how to incorporate edible plants into your home garden and landscape. You will learn how herbs, fruits, and vegetables can add to the colors and textures of your permanent landscape combining both aesthetics and functionality.
